

# **GIGANTIC**bag

plastics with purpose

At Gigantic Bag, we specialize in Plastics with Purpose — quality polyethylene films and bags designed specifically for jobs that plastics do best.

As a responsible manufacturer, we bring a big sense of purpose to everything we do, from supporting our communities with our Rolls for Goals™ fundraising initiative to programs that allow our customers to give their products an eco-friendly BioBoost™.

Make it Big. Make it Small. Just make it Gigantic.

## DIFFERENTIATORS

### Easy to Do Business

- Over 280,000 square feet of manufacturing and warehousing space
- Multi-rail car accessible with seven silos
- National and international logistics contracts and preferred status

### Product Availability and Know-how

- BioBoost™: A full range of eco-friendly solutions including poly recovery, recycling, plastic, biodegradable and compostable resins
- Consultative product design, sample development and industrial engineering support
- Volume resin purchasing and flexibility with availability

### Quality and Customer Service

- FDA compliant (Code 21, paragraph C, section 175-178)
- Approved preferred vendor to many industrial leaders
- Quality assurance: lot and specification control, batch lot sample retention
- Superior resin blending for critical and industrial standard applications
- Premium customer service, we stand behind our product
- Receptive to contractual and volume pricing partnerships

### Expertise. Earth. Each Other.

- Over 85+ years of poly blown film, extrusion and converting experience
- Made in the USA for lower costs, less carbon, and a stronger American economy
- Fundraising programs to help others achieve their goals. Education and resources devoted to reducing plastic waste. Inspiring innovation for greener packaging solutions

## CORE COMPETENCIES

- Isolation / Protective Gowns
- Wicketed and individually cut bags
- Large product covers and liners
- Cored and coreless trash bags and liners
- Furniture bags, Gaylord liners, bin liners, flooring, and pallet covers
- Industrial standard mid-size liners, and bags
- Industrial product protection, privacy films and bags
- Tubing bags and sleeves
- Centerfold bags and sheeting
- Shrink film bundling and bags
- Custom poly packaging applications

## MANUFACTURING CAPABILITIES

- LDPE and LLDPE resin blends from 1 to 8 mil
- HDPE blended applications
- Blends and additives including UVI, EVA, anti-static, anti-block, bio-degradable and assimilation
- EQ with blended strength resin
- Strength blends: Hexene, Octene, Butene, Metallocene
- Industrial standard colors — tint and opaque
- Application and product development and sampling
- Industry recognized quality assurance program
- Printing: 1 color/ 1 side random repeat print up to 48" wide

## PRODUCT FEATURES

- Custom and fit for purpose film and bags
- Wicket bags:
  - Widths: 5" up to 16" and up to 26" length
  - Side seal bags and sheeting: 4" to 24"
  - Individually cut bags: Widths 4" to 24" and up to 52" long
- Single and double wound and centerfold sheeting up to 95"
- Centerfold, gusseted and layflat bags up to 78" wide
- Center slit gusseted tubing up to 18' when open
- All industrial standard resin colors — tint or opaque
- Shrink bundling: sheeting and bags
- Perforated on a roll: sheeting, centerfold sheets and bags

## INDUSTRIES SERVED

- Industrial
- Medical
- State, city, event bids
- Food service and distribution
- Construction
- Agricultural
- Automotive
- Public and nonprofits
- Distribution

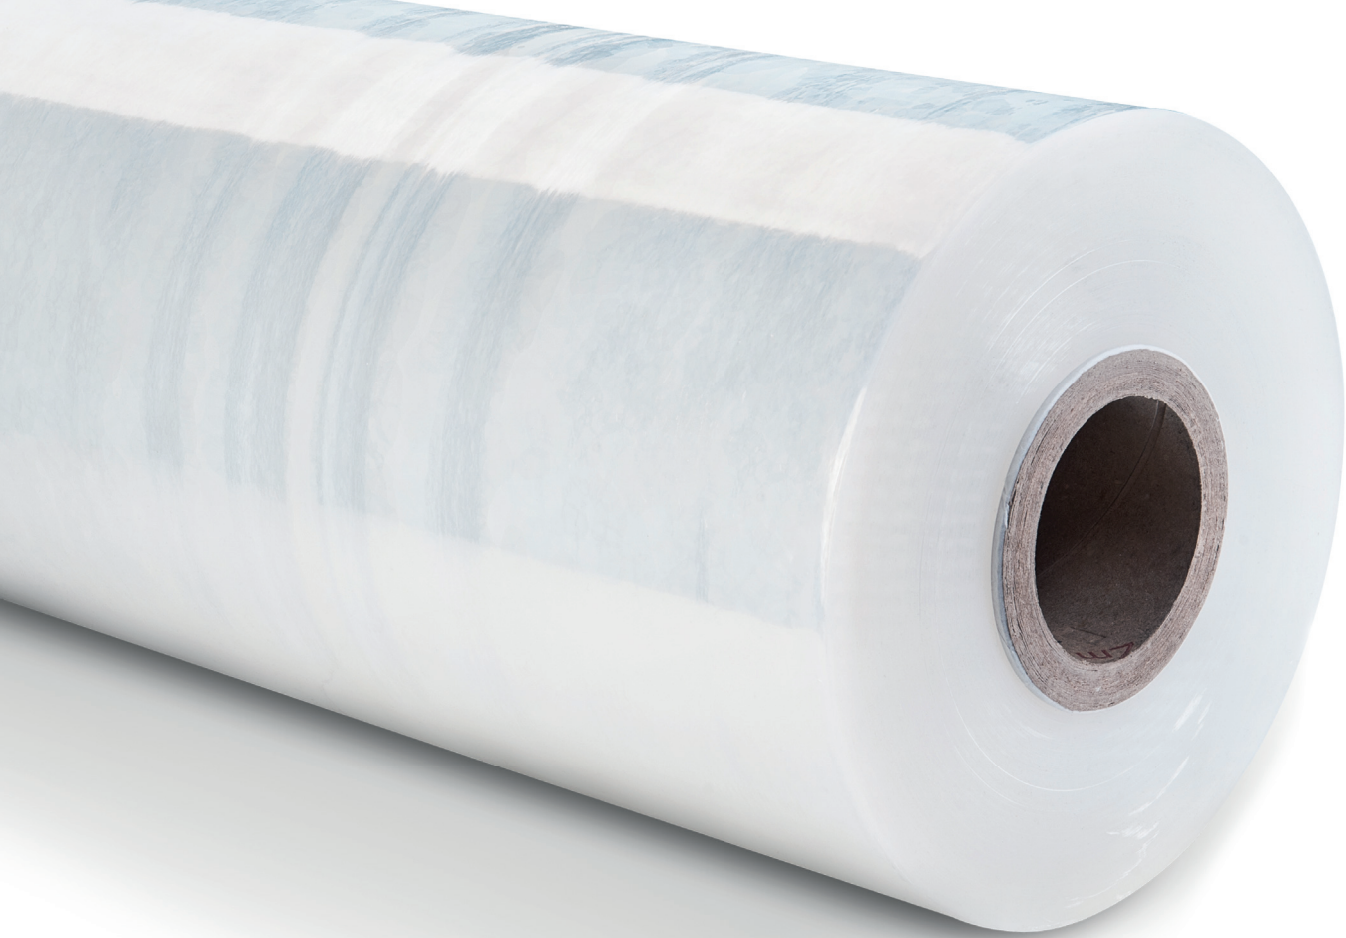

## PRIMARY NAICS CODES

- 326112 | Plastic packaging film and sheet including laminated manufacturing
- 326111 | Plastic Bag and pouch manufacturing

## DUNS NUMBER

- 117218997
- CAGE Number: 8MVC1
